Artists' Waves, by Fabrice Boustea

To celebrate its 5th edition, **Abu Dhabi Art** is launching a new section titled *Artists' Waves* that places the discovery and re-discovery of artists at its core. Selected artworks by innovative artists are presented in an exhibition that is curated and uniquely designed to reflect the dynamism of new artistic movements and shifting perceptions of art. *Artists' Waves* also includes a special salon, where visitors engage with galleries representing the artists, in a rotating programme.
